Covid Tests - Arriving from another country

March 2022

Protect against Covid: tests in France

Protect against Covid: tests in France
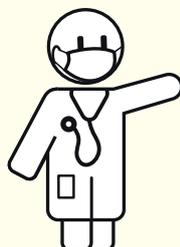

There exists several types of tests:

- **PCR or lateral flow detection tests** that look for the presence of the virus. Sample taken from the nose or from saliva.

- **Serological test** to see if you have had Covid (blood sample or drop of blood from fingertip).

Tests are performed by a professional or by yourself via an autotest.

Charity / NGO

Pharmacy

Where to be tested?

In a chemist, by a health professional, or with a non-statutory organization.

Traduit en anglais

What is the cost of the tests?

Tests are free for:

- All children under 18.

- Vaccinated adults or those who have been in contact with Covid patient or have a medical precription (if not, they will be charged).
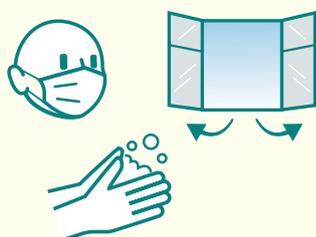

Some charities give out free autotests.

To be tested, it is **not necessary to have a social security card** or state medical aid (Aide médicale d'Etat AME).

What to do if test is positive?

- Speak to a **health professional** who will monitor your health.

- Respect **good hygiene measures** to protect your loved-ones and if possible stay isolated from them.

To find a test centre:
